SUMMARY

- Full Stack Web Developer and Computer Science Engineering student skilled in building scalable web applications using Python, Django, and React.js. Experienced in developing REST APIs, AI-based solutions, and database-driven systems using PostgreSQL. Strong understanding of frontend-backend integration with a focus on performance and real-world problem solving.

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, Python,
- **Web Technologies:** React.js, Bootstrap, Django
- **DevOps & Infra:** Postman, Docker, Git, GitHub, GitHub Actions
- **Databases & Frameworks:** PostgreSQL, MongoDB, Prisma, Drizzle ORM
- **AI & Systems:** RAG systems, AI agents, LLM tooling, MCP servers

EXPERIENCE

Internship

March 2025 — Present

Full Stack Developer Intern

- Developed backend modules using Django framework
- Built responsive frontend interfaces using HTML, CSS, and JavaScript
- Worked on real-world projects, improving debugging and optimization skills
- Collaborated on seamless frontend-backend integration

PROJECTS

AgroIntel AI – AI-based Crop Disease Detection System

2025 — Present

Python | NLP (NLTK/spaCy, TF-IDF) | Django REST API | React.js

()

- Developed a deep learning-based system for plant disease detection using CNN and ResNet architectures
- Improved model performance using data augmentation techniques and Adam optimizer
- Built Django REST API for real-time disease prediction and model inference
- Created a React.js frontend enabling image upload and instant diagnostic results

ARC Intelligence – Smart Document Analysis System

2025 — 2025

Python | NLP | Django | React.js

()

- Developed a document summarization system using Python-based NLP techniques without external APIs
- Implemented PDF text extraction and preprocessing for structured data handling
- Built rule-based and extractive summarization logic to simplify large documents
- Designed the system to efficiently process multi-page PDFs
- Created a Django backend for document processing and API handling
- Developed a React.js frontend for user interaction and visualization
- Enhanced readability through structured information extraction and summarization

EDUCATION

Khwaja Mohiuddin Language University

Lucknow

Bachelor of Technology in Computer Science and Engineering

Sep 2023 — Present
